Subject: Can you change the link text?

Hi Steve!

Instead of saying <a href=<http://www2.epa.gov/goldkingmine>>Region 8 Gold King Mine Website, can you say:

<a href=<http://www2.epa.gov/goldkingmine>>EPA's Gold King Mine Website

And you don't need the colon after that "at" (which is ideally "on" rather than "at") before the link text. Just have it read like a sentence:

The latest updates and information on the response at available on [EPA's Gold King Mine Website](#).

Thanks!
